GREAT FEMALE MEDICINE. DR. Townsend's Saesaparilla is a sovereign and peedy care for incipinat consumption, and for the general prostration of the system-no matter whether the result of inherent cause or causes, produced by iregularity, illness or accident.

Nothing can be more surprising than its invigoraring effects on the human frame. Persons all weak- berg Depot. ness and la situde, from taking it at once become ro-

It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of case

have been reported tous. Dr. Townsens: My wife being greatly distressed by weakness and general debility, and suffering continually by pain and with other difficulties, and having known cases where your medicine has effected great cures, and also hearing it recommended for such cases as I have described. I obtained a bottle of your Extract of Sarsaparilla and, followed the directions you gave me. In a short period it removed her complaints and restored her to health. Being gratful for the benefits she received, I take pleasure in these acknowledging it, and recommending if to the public.

"In looking up a few advertisements for my smal sheet, the other day, I called in upon Messra. J. Feeling pursuaded that the certificates were genuine, I took some of the medicine home for the use of my own young family. I gave the first day a small teaspoonful to Sarah. She was wan-looking and black under the eyes. She passed several worms, some as arge as a pipe stem. I also gave a small teaspoonful! Samuel, a little, rosy cheeked fleshy boy, about 31 ears old. But as his stomach was tympanous, i. e. e was pot-bellied, I thought he might have worms,-He cried after more, which I did not see fit to give him,

but upon the operation of this medicine, his mother and the neighbors were surprised at the result. He passed nearly a pint of worms, almost all as big as a commendation in behalf of that invaluable medicommon pipe stem. There was seventy in all. I then gave some to a little boy only 2 years old, and he passel twenty-five, some eight inches in length.
